TeamLogic IT Earns CompTIA Security Trustmark

Leading IT industry association recognizes TeamLogic IT for best security practices

([EMAILWIRE.COM](#), February 11, 2009) MISSION VIEJO, Calif., — TeamLogic IT, a nationwide network of businesses that provide comprehensive computer-based services for managing information technology, recently received the CompTIA Security Trustmark™ for [security practices](#). The Security Trustmark is a foundation for IT security best practices in reactive services, as well as proactive managed services and support.

"Earning this Trustmark is a huge differentiator for our company," said Vince Plaza, Vice President of Information Technology. "It validates our security policies and practices and clearly demonstrates that we strive for a higher standard of security practices in all of our TeamLogic IT business locations."

The CompTIA Security Trustmark accredits those who promote security best practices. It covers security practices and IT technologies including; security process, protocol and standards, intrusion detection, vulnerability assessment detection, data encryptions, anti-virus and firewall processes. In order to obtain the Trustmark, companies must participate in a comprehensive auditing process to validate their security capabilities.

TeamLogic IT provides networking services, security services, data services, email services and hardware and software for small- and medium-sized companies seeking to outsource their IT needs. The company also offers an IT managed services program called SystemWatch IT™, a remote diagnostic system that proactively monitors data and equipment, 24/7.

Chuck Lennon, president of TeamLogic IT expressed, "As a solution provider to thousands of end-user companies, with this accreditation we gain increased marketability for our brand, but more importantly, the trust of our customers throughout the United States and the United Kingdom."

About CompTIA
The Computing Technology Industry Association (CompTIA) is the voice of the world's information technology (IT) industry. Its members are the companies at the forefront of innovation; and the professionals responsible for maximizing the benefits organizations receive from their investments in technology. CompTIA is dedicated to advancing industry growth through its educational programs, market research, networking events, professional certifications, and public policy advocacy.
